

THE ADAMS SENTINEL

GETTYSBURG:

MONDAY, NOV. 15, 1859.

Thanksgiving Day.

On Thursday next, the day set apart by the Governor as a day of Thanksgiving and Prayer, there will be Union Services in the Presbyterian Church. The Stores and places of business will all be closed.

We are requested to say that the Rev. C. Z. WEISER, of Selin's Grove, will preach in the German Reformed Church, Gettysburg, on Thanksgiving day (Thursday next), at 10 o'clock, A. M., and at 2 o'clock, P. M.

The whistle of the iron horse is one of the morning peculiarities now. Coming nearer daily, the sound is more distinct, and his form and breath of nostrils are visible to those of the "east end," and others who have favorable locations for observation. The track-layers are but a comparatively short distance from town, and, if the weather continues favorable, it is highly probable that they will reach Gettysburg in the latter part of this week.

In the meantime, the buildings and other "fixtures" for the reception of the stranger, are going up with an energy on the part of the Directors, deserving commendation. The Freight Depot, Engine-house, Turn-table, Water-tank, &c., are nearly prepared, and the Passenger Depot is in progress.

The Warehouse of Kinkefelter, Seitz & Co., is already in successful operation, and they appear to be doing considerable business.

The fine building of Shoads, Buehler & Kurtz, is up, and presents quite a handsome and imposing appearance.

Mr. Yount has taken possession of the commodious Hotel on the corner diagonal from S. B. & K., and is fitting it up in handsome order.

The new Commissioner, Mr. DANIEL GEISELMAN, was installed into office on the 2d inst. HENRY A. PICKNEY, Esq., is the retiring Commissioner. The Board now consists of Messrs. Josiah Bonner, Jacob Hunsberger and Daniel Geiselman. Mr. Bonner is President, and Mr. J. M. Walter has been re-appointed Clerk.

On the 1st inst. the new Director of the Poor, Mr. ABRAHAM SPANGLER, was installed into office. Garret Brinkerhoff, is the retiring Director. The Board is now composed of Messrs. Frederick Wolf, Andrew White and Abraham Spangler—Mr. Wolf being President.

Fire.

The house of Wm. Campbell, in Franklin township, above Cashtown, was destroyed by fire on the night of the 15th of September last, with all its contents. We have no particulars.

CHRISTIAN RICE, of Menallen township, received a handsome premium at the Cumberland county Fair, for his fine four-year-old horse colt.

Perry J. Tate has purchased from Hon. B. McPherson a piece of ground lying between the Chambersburg Turnpike and the old Railroad, half-way to the Ridge, and is putting up a "Cottage."

A Turnip.—The Franklin Repository says:—Mr. P. Braum left in our office a Turnip, raised by Mr. CYRUS GRIST, of Menallen township, Adams county, which measures 27½ inches in circumference and weighs 8½ pounds.

If any person can beat the Best, or can turn up or turn out a bigger turnip than Adams, we are ready to hear them.

Property Sales.

Mr. Adam Butt has sold his Farm, on Marsh creek, Hamilton township, to Mr. Isaac Ploutz—230 acres, for \$6,500.

The Harper Farm, in the same township, has been purchased by Mr. Lechman Ploutz—145 acres, for \$2,618.

Rev. Mr. Burkett has disposed of his Farm, on Willoughby's Run, to Mr. J. Scott Wilson—125 acres, for \$2,500.

Messrs. Jeremiah Shybaugh and Jacob Sandoe, Executors of Baltzer Gmitter, deceased, on the 16th ult. sold the Farm of said deceased, in Menallen township, to Messrs. John Hoover and David Hartman—174 acres, at \$16 per acre. The Farm of the dec'd in Franklin township was purchased by Elizabeth Gmitter—95 acres, at \$30.40 per acre.

Mr. James Townsend has sold a Tract of Land, with good improvements, situated partly in Huntington and partly in Reading townships, to Jeremiah Shybaugh—42 acres, for \$1,750.

Mr. Jacob Mickle, of D., has sold his Farm and Mountain-land, in Franklin township, to Mr. Wm. H. Wierman—192 acres, for \$7,000.

The House and Lot on Carlisle st., late the property of J. B. McPherson, Esq., deceased, was sold at Public Sale, on Saturday last, by Hon. E. McPherson, Esq., to Solomon Sultbaugh, of York county, for \$1200.

Illinois Election.—The latest accounts state that the republican State ticket is elected by about 2,500 majority. The Legislature is for Douglas, as before stated.

The Late Elections.

The late elections are likely to produce a marked effect upon the doctrines of the Administration Party. The Cincinnati Platform was constructed in the North to teach Popular Sovereignty, and with that understanding Mr. Buchanan was elected. Yet one of Mr. Buchanan's best-known opinions is that Popular Sovereignty is a "humbug," and should be crushed out of the creed of his party. He disregarded it in his Kansas policy, and has at no time given it countenance or support.

Mr. Douglas went before the people of Illinois, claiming to be the defender of Popular Sovereignty, and favoring the furthest possible extension of the doctrine. The Southern Democracy are hostile to the doctrine in all its forms, as its fair application would inevitably prevent the extension of Slavery. Mr. Buchanan is anxious to head off Douglas in the South. He fears that Douglas may gain too much power in the party, and the Washington Union has begun to assail his Popular Sovereignty doctrines. A late number of that paper contains a long editorial, evidently written by Judge Black, Attorney-General, declaring that "quatter sovereignty is a humbug and an impracticable absurdity," that "Congress is the sole law-giver," and that the Dred Scott decision establishes slavery in all the territories in a manner which no local statute can remove until it becomes a State law. And he denies that the Kansas-Nebraska act or any other territorial act passed by Congress "gives a wink or blink of countenance to it." Mr. Buchanan is evidently bent on compelling the Democratic party to abandon popular sovereignty, and take up the ultra pro-slavery doctrine. Meanwhile it is amusing to hear Popular Sovereignty Democrats extolling Mr. Buchanan and his Administration.

During the last few months we alluded repeatedly to the Expenditures of the National Government as enormous. Our statements were generally denied by the Administration papers. But the official statements of the Department show that we were correct in our charges. The Register of the Treasury has within a few days made public the condition of the Treasury for the three months which ended Sept. 30. From it we learn that, during that time, the ordinary revenues amounted to \$14,825,679 46, whilst the ordinary expenditures were \$20,714,198 51. Of this, over Six Millions went to the Civil list, over Eight Millions to the Army, and over Four to the Navy. The revenues of the quarter is less by over SIX MILLIONS than the revenue for the same quarter last year, the receipts from duties on imports, and from sale of lands, having largely diminished.

We have before us the previous quarterly statement of the Register, and can, therefore, give the operations of the Treasury for the last six months, as follows:

Ordinary rev. previous quar. \$10,532,556 64
last quarter, 14,825,679 46

Ordinary expenditures, \$23,358,235 90
last quarter, 20,714,198 51

Expenditures in excess of receipts, \$14,009,297 94. The expenditures, the last quarter, were over those of the previous, as were also the receipts. The balance in the Treasury is diminishing every day; and in a few weeks the Secretary of the Treasury will borrow the additional Ten Millions authorized at the last session of Congress. Our Public Debt will be increased between Thirty and Fifty Millions this year. This is the first time our Government has contracted a debt in time of peace. We will see soon what remedy the President will propose for this anomalous and disgraceful state of things.

From the Lancaster Examiner.

EDWARD McPHERSON, Esq., member elect to the next Congress from the Adams district, spent several days in this city last week, and was cordially received by a large circle of friends and acquaintances. Few victories of personal and political friends occurred that affords us more pleasure than the success of Mr. McPherson. He made a most gallant fight against his Leecompton opponent, Wilson Reilly, and beat him handsomely. Mr. McPherson is the youngest member in the delegation from this State, and likely to be the youngest in the next Congress. His constituents may feel proud of their youthful, but able representative. He is emphatically a working man, and Pennsylvania will have no truer representative in the next Congress.

When is our?—While the Little Giant was struggling with might and main, to retain his place in Illinois, the President, through his organs, ex-communicated him from the Democratic church, and turned him over to weeping and wailing and gnashing of teeth. But full returns from Illinois assure us that the Little Giant has come off conqueror. The question now is, which is in and which is out of the Democratic party? They are not together; that is certain. They are not both in the same church. Has old Buck turned the Judge out, or the Judge turned old Buck out?

Mortality among Catholic Priests.—We learn from the Catholic Standard, published in New Orleans, that six Catholic priests have fallen in that city since the commencement of the epidemic. We learn also from the same source that the diocese has lost no less than sixteen priests within the short period of six months.

The Philadelphia North American makes some good suggestions to the newly elected members of the Legislature. Among them are: that they should avoid corrupt bargaining and intriguing, and corruption in every form; that they have no dealings with the corrupt agencies that exist at Harrisburg (men: vote all botes a bore;) endeavor to secure good officers and a judicious construction of committees; avoid special and corporation legislation as far as possible; all special supplementary legislation especially; labor closely, honestly, and faithfully; get through business with very few speeches, and as soon as practicable; make the session a short one by all means; and go home as soon as possible.

The Governor has issued a writ for an extra election in Berks county on the 30th inst., to supply the vacancy caused by the resignation of Hon. J. Clancy Jones, as a member of Congress.

We have, this morning the first snow of the season.

The Star of the West arrived on Friday, with San Francisco dates to the 20th ult., and \$1,870,000 in specie.

The Indian war in Oregon was at an end.

The Supreme Court of Pennsylvania, has awarded a peremptory mandamus against the county of Allegheny, compelling the collection of a tax to pay the interest on the bonds of the county issued for railroad purposes.

Old Line Whigs.—It is remarked as a singular fact, that the late contest for the Legislature of Illinois was decided against the Republicans by the old Whig counties of Sangamon and Madison, the former the residence of Mr. Lincoln, and the latter of Senator Trumbull. In 1856 these counties went heavily against the Douglasites.

Of Course.—Several dozen Democratic editors, who, before the result of the Illinois struggle was known, were uncompromising, as between the Administration and Douglas, have made haste to nominate the Little Giant for the next Presidency.

The Terms.—The terms on which Douglas will make peace with the Administration, are, that all of his friends who have been removed from office shall be reinstated. Otherwise he will carry on the war with redoubled fury. This is the last news from Illinois.

Neutrality of the Cable.—The Savannah News gets off the following:—

"The Atlantic telegraph is at present perfectly neutral. As our friend Pat would say, 'it's devil a word it has to say on either side.'"

The Indians in Texas.—The Texas papers say that the Wichita Indians seem to have been seized with a wholesome alarm, from the severe chastisement our troops have given the Camanchees. They have obtained permission of Major Neighbors to remove, and remain in the Brazos reserve until further provided for. This is among the first of the good fruits of the stern measures recently adopted against the wild Indians.

Terrible Accident and Death.—Mr. Christian Bombberger, of Lebanon county, was recently engaged in blasting rocks in a quarry, and the charge was blown into his face. His eyes were knocked out, and nose, cheek and jaw bones broken. In short the whole face was dreadfully mutilated. He lingered in an insensible condition a few days, and then died in great agony.

The police of Cincinnati arrested a number of counterfeiters in Lawrence county, Ohio, a few days ago, and seized all their apparatus, used principally in making bogus Mexican dollars.

Train Stopped by a Monkey.—The Hartford Evening Press says a day or two ago a passenger on one of the trains to New York and a pet monkey, with which he amused the passengers. Near Port Chester the train suddenly stopped. Nobody could tell the cause, until it was discovered that Master Jocko had mounted to the top of the car, and pulled the cord which communicates with the locomotive, and thus given the engineer the signal to stop.

Growth of a Western Village.—A letter from Fairbury, Illinois, says:—

Last November there was but one house here; now there are over forty dwellings, seven stores, three warehouses, a church, school house, railway depot, steam mill and other buildings—all erected within eleven months. This is only a slight sample of our progress here in the west.

The wife of Mr. W. C. Andrews, of Gallopis, Ohio, was burned to death at his residence on the 3d inst., by her clothes catching fire from the stove.

The Culpeper Observer says:—Mr. Joseph C. Beverley, a young man in the employ of Mr. Reamer, bricklayer of this place, moulded, on Wednesday last, Five Thousand Bricks, in nine hours and fifty minutes, stepping during this time to eat his dinner.

Shoemakers.—It is said that one man in every eight in Massachusetts is a shoemaker. In Lynn, 5,000 persons are employed in shoe-making, and the sales in 1857 amounted to \$4,000,000. In Boston there are 218 firms engaged in the trade, doing business to the amount of \$52,000,000. In New York there are only 44 houses.

A Popular Candidate.—The number of votes cast in the county of Suffolk (Boston, Chelsea, North Chelsea and Winthrop) for a register of deeds, at the late election, was 16,102, of which Henry Allina, who was on all the tickets, had 16,000, or all but 6.

Spots on the Sun.

Caleb S. Hallowell, principal of the Alexandria (Va.) High School, has furnished the Gazette with the following description of an interesting group of spots observed on the sun on Wednesday morning:

They are not far from the centre of its disc, and are consequently in a favorable position for being seen. The largest of the group has a distinctly defined penumbra of twenty-two thousand miles diameter, enclosing a dark nucleus of about half that size. The peculiarity of this spot consists not in its size, but in the fact that an exceedingly fine white line can be traced across it, dividing the nucleus into nearly equal parts.

Solar spots, when carefully observed, are found to present very varied appearances; they all gradually travel across the face of the sun, appearing on its eastern, and disappearing on its western edge. Some spots increase in size, while others diminish, and the velocity of this increase or diminution is very variable; none, however, are permanently fixed upon the sun, all being found sooner or later to disappear. Recent observations upon these interesting objects would seem to prove that each spot revolves about its centre, being, in fact, a gignatio whirlpool of flame.

Death of a Talented Lady.—Mrs. Amelia Pickney, one of the oldest and most accomplished ladies of Annapolis, Md., died on the 4th inst., in the 80th year of her age. The Annapolis Gazette says:

Her industry was wonderful. The records of the State Department bear evidence of a skill in penmanship, and a capacity for business, rarely met with in woman. After her seventeenth year she wrote fifteen hundred closely written pages, full of the stores of her rich mind and cultivated taste, solely for the personal and gratification of those who cherished the last years of her bodily suffering. In all this tribute of affection there is no sacrifice of the truth she loved so well—no exaggeration of the reality. As an evidence of the powers of her mind and the rapidity of her mental conception, we may mention that when past her seventieth year she wrote in six weeks five hundred verses of excellent poetry, on the subject of the Queens of England, without erratum of a line or change of a word.

We regret to see the announcement of the death of David Leech, Esq., which took place at his residence in Leeburg, Armstrong county, on the 3d inst. He had attained the ripe old age of 69 years. He was during many years at the head of one of the largest houses engaged in transportation on the line of the Public Works of the State. An enterprising man of business, of sound judgment and great integrity, he was not only extensively acquainted through the Commonwealth, but was highly esteemed by all who had social or business transactions with him.

General Walker, the filibuster, does not like the President's Proclamation against his projected invasion of Nicaragua, and he is now in Washington attempting to obtain its withdrawal or modification. He declares his readiness to sail for Nicaragua immediately, and expresses his determination to do so, whether the President accedes to his wishes or not, and to run the chances of arrest or detection by the United States or British naval forces.

The Supreme Court of Pennsylvania has decided the question between the Sunbury and Erie Railroad Company and the canal commissioners, (in which was involved the constitutionality of the act of the Legislature authorizing the sale of the State works), in favor of the railroad company. This is an important decision, and affects several very prominent companies of this and other States.

Lancaster City is infested with incendiaries. Quite a number of buildings have been recently burned. Several suspected persons have been arrested. A corps of night watchers have been appointed by the Mayor to guard against future fires.

Prentice, noticing the exhibition, by a horse trainer, of an anti-kicking bridle, says, "the inventor has sold out his patent to the President, who intends to use it on Douglas, Wise, Forney, and others, who show a disposition to kick out of the party traces."

Lieut. Cornelius Van Camp, who was recently killed by the Camanche Indians in Texas, was educated at West Point, through the influence of the Hon. Thaddeus Stevens, of Lancaster, Pa.

Two German brothers in Calhoun county, Ill. married two German sisters. The elder brother fell sick, and the younger ran away with the sick man's wife. The emulous brother then followed with the other wife and now wants to swap back, but his own wife, who has tried both, says neither of the brothers is worth having.

Race Between a Man and a Horse.—Last Thursday there was a race between Mr. Adams and the horse "Hector," owned in North Adams, on the Agricultural grounds in this town: the horse to trot one mile and 400 yards, and the man to walk a mile—best two in three. The first heat was won by the man, who came in about ten rods ahead; time 3.16. The second heat was won by the horse, by about the same distance; time 3.20. The third heat was won by the man, in 3.10, nearly distancing the horse. —Northampton Gaz. & Courier.

Killed to Death by a Gun.—Wm. Cameron who resides near Opaqua, Ill., purchased a shot-gun that had a load in it, and a few days thereafter shot it off, when it kicked with such force as to rupture his abdomen and cause a wound that produced his death in a few hours. This is a singular act to terminate fatally.

Improvements at New Oxford.

This place appears to be improving quite rapidly. Oxford is a very pretty little town, and if it continues to improve as it has done for the last twelve months, must in the course of a few years become one of the handsomest inland towns in the State. It is beautifully elevated and otherwise desirably located—has a fine large square—wide streets, &c. Since the completion of the Railroad to that place in January last, Messrs. Bassett & Winter have erected a three story brick warehouse and are doing a large business. Mr. Peter Diehl has finished a large produce warehouse; Mr. Amos Zuck a two story brick house; Mr. A. W. Siau a three story brick house which is occupied as a store; Mr. Leo Staub has erected a brick back building, and will put up a front one in the Spring; Mr. C. W. Doll has built a tinner and saddler shop, both of which are in active operation; Mr. Henry Wiess has built a new brick house and blacksmith shop; Mr. Daniel Hitzel a new frame house; Mr. J. B. Bassett a brick house; Mr. John Dietrich a new and beautiful frame house and tinner shop; Mr. Peters a new blacksmith shop; Mr. J. Barutz two frame houses; Mr. Miller a two story brick house; Mr. Shane a frame house; Mr. Jeremiah Diehl a new brick house; Mr. Stuck a new barn; Mr. Miley a two story brick house; Mr. Frank Sherman a brick house; Capt. Wagner a barn, and though last, not least, our friend, Mr. J. S. Gitt, is erecting a large three story brick house on a corner of the Public Square, probably the best situation in Oxford. This building promises to be when finished the handsomest and most substantial in that neat and thriving village. It is our intention to describe this handsome building more particularly hereafter, and will remark in reference to it at this time that it is in all respects a first-class house, and evinces at once the taste and spirit of its respected and gentlemanly owner. May he live to enjoy it for a thousand years and be the first Mayor of the City of New Oxford.

In addition to the above, there are a number of buildings in progress of erection, some of them nearly completed, which are kept back by the wet weather. We understand that there is a great demand for houses in Oxford.

During our visit to New Oxford we took occasion to look in at the large Warehouse of Mr. Franklin Hersh, and confess our surprise at the active business doing there, especially in grain and groceries. Mr. Hersh is a very enterprising merchant, and being withal a remarkably accommodating gentleman, his success is assured at the beginning. In addition to his warehouse business Mr. Hersh has an extensive lumber and coal yard, over which he is enabled to exercise a personal supervision, and in each department appears perfectly at home.

Foreign Investments.—The New York Herald says that the Queen of Spain has agents here, who have command of two millions of dollars, to be invested in this country. The same paper states that most of the crowded heads of Europe are doing an active business in the way of investments in the United States. Louis Philippe had large possessions in our Republic, and Louis Napoleon has sent out from three to five millions here to be invested by his agents. It is said that the greatest operations in this way are the petty princes of Germany, whose investments in American securities, amount, it is believed, to fully fifty millions of dollars.

The Democrats have carried "Little Delaware." This is a ray of success amidst a storm of defeat. But with the present condition of public opinion, the smallest favors are no doubt thankfully received at the White House. The Governor elect is Wm. Burton, democrat; Congressman, Wm. G. Whitely.

HASKIN'S REPORT.—If J. B. Haskin did not equal John Van Buren in wit, we have no doubt he did in sincerity, when he said, in his last speech previous to the election:

"A few nights ago, Mr. Van Buren, in referring to the fact of Andre's capture, said that if I were searched he had no doubt but a pass from Seaward would be found on the heel of my boot. I can only say that if he comes in proper proximity to the toe of my boot, I will give him a pass that will accelerate his movements in turning some one of his many political summersets."

UNLUCKY.—In Western New York the Democrats were unlucky in the names of their Congress candidates. Look at the list! There were Mr. Trimmer, Mr. Skinner, Mr. Hatch, Mr. Jenks, and Mr. Trott. Who could have expected to succeed with such unlucky nomenclatures? Whether Mr. Trott made anything of a run, we have not yet learned; Hatch is put back into his shell; Skinner has been literally fayed alive by the enemy. Trimmer could not trim sail well enough to get through the breakers. All lost! Don't ask "what's in a name?"

Remarkable Exhibition.—At the agricultural fair recently held at Hopkinsville, Tennessee, ten brothers, named Brown, all mounted on fine grey horses, rode into the amphitheatre and displayed their horsemanship, all being good riders. The eldest was aged forty, the youngest twenty. They had not all been together for fifteen years. Their mother was present, and they reined up in front of the matron, and saluted her, while she shed tears of joy and pride.

THE LATE ELECTIONS.

An Important Question Settled.

The late elections have resulted in one of the most complete political revolutions ever witnessed in this country. The hitherto invincible base of Democracy have been routed "horse, foot and dragoon," by the People's Battalions marshalled under the flag of FREEDOM and PROTECTION TO AMERICAN INDUSTRY. The result of the elections held within the last month, commencing with Pennsylvania, and ending with the States that voted on Tuesday of last week, has settled one question beyond all controversy. The next House of Representatives of Congress will contain a majority of members opposed to the Administration, and IN FAVOR OF A PROTECTIVE TARIFF. This, says the Philadelphia Inquirer, is a matter of the utmost importance. "Whatever, therefore, may be done at the closing session of the present Congress, it is quite certain that as soon as the New National Legislature shall assemble, the rights and interests of the industrial classes will be duly recognized, and an effort made to secure that desirable blessing, ADEQUATE PROTECTION TO HOME INDUSTRY. THE PEOPLE have so determined, and their representatives will, at the earliest opportunity, endeavor to carry out their wishes. No political contest has taken place for years, in which the masses of the country, the mechanics, the manufacturers, the operatives, and the day laborers, were so deeply concerned. They were told that in some sense they were struggling for the means of subsistence—for regular labor in the first place, for suitable wages in the second, and, as a consequence, for food, raiment, and firewood for themselves and families. They have been suffering for years, because of the existing system, and within the last eighteen months hundreds, nay, thousands, have been deprived of their employment. Their little savings have become exhausted, and they have been compelled to part, one after another, with articles of jewelry and pieces of furniture that they had bought in better times. No wonder, therefore, that they felt deeply, nay, vitally concerned, in the elections and their results. The old party cries lost their magic and their charm, and the people themselves organized a new party, a leading feature of which was and is, ADEQUATE PROTECTION TO HOME INDUSTRY. A triumph has been achieved, a signal triumph, and we may, therefore, infer with confidence, that the next House of Representatives will contain among its members a decided majority who will regard themselves as pledged to provide such a Tariff for the country as will afford encouragement, protection, assistance, and stimulus to our own mills, our own forges, our own factories, and our own workshops generally."

Corruptibility of Congress.

The appointment of the Hon. J. Clancy Jones to the Austrian Mission, and so immediately after his defeat before the people, attracts attention. In the olden time, and even in the days of General Jackson, the corruptibility of Congress was a topic of much discussion, and that distinguished individual denounced the system of appointing members, as calculated to be productive of infinite mischief. In the recent case, the President has seized upon the earliest moment to reward a political favorite. The case of Mr. Jones has a very awkward appearance. He has been repudiated at home, but he has been honored at Washington. His constituents of Berks county have passed a solemn verdict upon his legislative career, but Mr. Buchanan has conferred upon him one of the most lucrative offices in his gift. These are the facts. They speak for themselves.

Thriving German Settlement in Texas.

A letter in the New York Herald, dated Fort Clark, Texas, thus refers to a thriving German settlement:

Some thirty miles from San Antonio is located the flourishing German village of New Braunfels, an oasis of thrift and industry amidst a desert of genuine Texian business. The main street of the village is very wide, and lined on either side by neat painted cottages, with tasty grass plots and flower gardens in front. Here you find an excellent hotel, a bakery, some fine stores, and no less than ten wagon factories. These German settlements abound in educated men—Hungarians, Poles, and even Austrians, rivaling the Germans themselves in education and refinement—all, or nearly all, exiles from the fatherland, on account of their political opinions. As I have remarked in a previous letter, these Germans are doing for Texas a great work of civilization, gradually convincing the people of that State that industry and economy carry wealth and prosperity along with them, and form the sure foundation of a powerful and influential community.

A Wedding Party but no Wedding.—The Indianapolis Journal relates how a heartless desertion of an expected bride took place in that city on Thursday evening. The supper was prepared, the guests came, the lady—a widow—was waiting in her bridal attire, but the expected bridegroom came not. It was afterwards ascertained that he went that very afternoon to Hartford, Ind., to marry another lady.

Singular Suicide.—On the 30th ult., a young German, of Chicago, Ill., being disappointed in an affair of the heart, loaded a gun with water over the charge of powder, put the muzzle to his mouth and pulled the trigger, blowing his head to atoms.

Andrew Shannon, a well known and respected citizen of Warren, Jefferson county, Ohio, died on the 2d inst., from the bite of a rat, which he received a few days before.

The Revival and the Ministry.

The New York Observer mentions as one of the effects of the late religious revival, that very large conversions have been made in the Presbyterian divinity schools of the country. One hundred and sixteen students are now in the Theological Seminary at Allegheny city. This is a far larger number than has ever been in the seminary before. Other seminaries are also filled with young men pressing into the ministry. Princeton has more than one hundred and sixty, and the village has been largely called on to furnish lodgings for those who could not be accommodated within the seminary buildings. The Union Theological Seminary in New York city has one hundred and twenty-four students, and the effect generally has been to direct the attention of the thoughtful to sacred subjects.

Encounter with Fugitive Slaves.—On the 30th ult., ten slaves made their escape from the vicinity of Pruntytown, Va. They were, however, overtaken in Fayette county, Pa., where a desperate fight took place, and the owners and others pursuing were beaten back. Col. Armstrong, of the pursuing party, was attacked by one of the negroes with a corn cleaver, and would have been killed but for the interference of one of his own servants, who stepped in to protect his master. Another of the party pursuing was fired at and badly injured, while the negroes made their escape. A party of about twenty-five persons subsequently started in pursuit.

Death and Burial of a Young Indian Chief.—To-be, the Iowa chief, lost one of his sons by death a few days ago, who was buried with the highest honors of the tribe, and in accordance with the custom in vogue among the dusky sons of the forest. He was placed in a sitting posture upon the summit of a high hill, his bow and arrow, a war club and a pipe, deposited near him, when a pony was shot to accompany him to the happy hunting grounds. A mound of earth was then thrown over the whole, a white flag raised, and the usual phrases placed around to keep away evil spirits. The young chief was not more than 12 years of age. —Kansas Ledger, Oct. 25.

Singular Coincidence.—Both Mrs. G. and Mrs. H. of Hingham, Mass., and Mrs. Studley, of Valley Falls, R. I., were, previous to their arrest, considered highly respectable; both were married ladies; both were convicted of the murder of their husbands; both committed this crime by the same means, namely, poison; both were sentenced upon the same day, to wit: 28th day of October, ult., by the Supreme Court of the two States, and both for and during their natural lives. —Providence Post.

Two Children poisoned by their Mother.—On Saturday, Mrs. W. L. Gold, residing on Wate Lane, Allegheny City, the mother of two boys, about two months old, having shown symptoms of illness for some days past, the attending physician prescribed them paregoric as a remedy, to be administered in doses adapted to children of their tender age. Saturday forenoon the little patients were very uneasy, and the mother administered them a part of a teaspoon each of what she supposed was the medicine prescribed by the Doctor. The children suddenly became very quiet, and their appearance attracted the attention of the parent, when the horrible truth flashed upon her mind that she had poisoned her babes. Beside the paregoric stood a phial of ipecacuanha which she had been applying to a burn on her hand, and a little reflection convinced her that she had mistaken this for the proper medicine, and administered it to her children. A physician was called, but every effort to restore the little sufferers to consciousness proved futile. Towards evening they were seized with spasms, and yesterday fell into the comatose state, in which they remained. No hope of their recovery is entertained.

An Elevated Railroad.—In Chili, a branch of the Coripato railroad, between Pabellon and Chamarille, passes over the Andean mountains, at an elevation higher, it is said, than any other railroad in the world. On the 3d of August part of this railroad was opened, and a locomotive ascended to the terminus at an elevation of 4,440 feet above the level of the sea. This altitude is about 1,000 feet greater than the highest point of the Vennus and Trieste railroad, in the Austrian Alps. The highest elevation of the railroad which passes through the Blue Ridge in Virginia, is 2,700 feet, 1,740 feet less than the highest point on the Copiapo railroad.

A Deserted City.—The city of Tampa, Florida, has been almost depopulated by the ravages of the yellow fever, and by the flight of alarmed citizens. The particular says the town wears the appearance of a churchyard.

Gone.—The Peru (Ind.) Republican reports a large squirrel hunt at that place a few days ago, in which two parties of six killed exactly three hundred squirrels each. That sort of game must be abundant up there. Wild turkeys, too, are said to be rather "plentiful."

Chess Phenomena.—A correspondent of Harper's Weekly speaks of two little chess phenomena, residing in Fayette county, Ky. They are a boy and girl, aged 11 and 13 years respectively, and, blindfolded, can beat any of the most experienced players in that section.

Beholding a Dead Christian.—At Erzeroum, in Armenia, no rain having fallen this summer, the Turkish clergy could devise no better expedient to propitiate the heavens, than the infliction of capital punishment on a Giaour or Christian, and being merciful in their management, had the dead body of an unbeliever disinterred and decapitated. This proceeding has actually caused a greater sensation in Asia Minor than the every day occurrence of ordinary beheading, and added to the tumult all around Lebanon, and the general outbreak of Ottoman fanaticism in the East, the state of affairs is truly alarming.

The greatest study of Mankind is Man. Not so. The greatest study of Mankind is Woman. Not so. Men think a great deal about women. Men don't study them.

The times are said to be so hard in Halifax, that the two editors of the newspaper published there, smoke the same cigar—taking it by turns.

PHILADELPHIA, Nov. 11.

A Thrilling Scene.—The wife of Mr. A. J. Galbraith, a lady about 28 years of age, recovered some time since from a protracted illness, but unfortunately, at the expense of a portion of her reasoning faculties. Since her recovery she has insisted that the house in Third street was haunted, and has continually expressed a reluctance to continue in its occupancy. On yesterday morning about 4 o'clock, she arose noiselessly from her bed and ascended to the garret, where she at once attempted to raise the dormer window. In doing this she made a noise which aroused her husband. The husband rushed hastily up the stairs, but the lady had succeeded in raising the window. As he rushed forward and seized her by her clothing the unfortunate woman had one foot upon the eave trough, and was already inclining her weight over the roof edge. A moment of frightful suspense had now arrived. The life of the woman depended solely upon the grasp of the husband and the strength of her drapery. The latter gradually gave way, and the life of the poor woman hung as it were upon a thread, when, by a sudden change of movement, her husband grasped her by the hair, and thus was enabled to sustain her for a moment longer, when assistance came to his aid, and she was saved, though badly cut by the broken glass.

Nature's Diadem. The richest and most glorious diadem ever worn by man or woman is a good, luxuriant head of hair. It is the natural covering for the head, hence the earnest desire on the part of all who have become bald to have it restored. We have observed for the past few years the increasing number of bald heads, and others that are turning prematurely grey. This fact of itself has directed the attention of savans and philosophers to the investigation of the subject, none of whom have been more successful than Professor Orlando J. Wood, of St. Louis, who for years has experimented with his Hair Restorer, until he has brought it to a degree of perfection not attained by any other preparation. Prof. Wood stands alone in making hair grow on bald heads; he publishes hundreds of certificates from men of undoubted reputation for truth throughout the country, and we have it from his agent here, Dr. Keyser, that quite a large number of cases right in our midst, whose bald heads have been covered with hair as luxuriant and strong as any one need wish. In nearly every case, while this preparation restores prematurely grey hair to its original color, not by dyeing it, as you would dye a skein of yarn or thread, but by supplying the natural coloring matter, and making the vessels whose office is to carry it to the scalp do their duty. Many an old bachelor and ancient dame will hear of this with great satisfaction, while those who are younger, whose temples are fringed with untimely snows, will find in Professor Wood's Restorer the very thing that will bring back the glossy ringlets, bright and natural, to vie with the raven's wing for beauty and lustre. Professor Wood deserves the commendations of all for his great discovery, and many will bless the head that has invented a remedy to keep the white of untimely winter from their own. —Pittsburg Journal.

THE GREAT BEAUTIFIER, So long unsuccessfully sought, FOUND AT LAST!

FOR IT RESTORES PERMANENTLY gray hair to its original color; cures luxuriantly the bald head, restores all that is missing and restores the hair soft, healthy, and glossy; and will preserve it to an advanced age, removes, as it by magic, all blotches, &c., from the face, and cures all neuralgia and nervous headache. See circular and the following.

DOVER, N. H., Feb. 2d, 1857. PROF. O. J. WOOD & CO.—Gents: Within a few days we have received so many orders and calls for Prof. O. J. Wood's Hair Restorative, that to-day we were compelled to send to Boston for a quantity. (This dozen you forwarded all by express,) while we might order a quantity from you. EVERY BOTTLE we have sold seems to have produced THREE OR FOUR NEW CUSTOMERS, and the probability and patronage it receives from the most substantial and worthy citizens of our vicinity, fully confirms our opinion that it is a MOST VALUABLE PREPARATION.

Send us as soon as you may one gross of \$1 size; and one dozen \$2 size; and believe us very respectfully.

DANIEL LATROFF & Co., Hickory Grove, St. Charles Co., Mo., Nov. 19, 1856.

PROF. O. J. WOOD—Dear Sir: Some time last summer we were induced to use some of your Hair Restorative, and its effects were so wonderful, that we feel it our duty to you and the afflicted, to report it.

Our little son's head for some time had been partially covered with sores, and some called it scald head. The hair almost entirely came off in consequence of the sores, and we had been advised us to use your Restorative. We did so with little hope of success, but to our surprise, and that of all our friends, a very few applications removed the disease entirely, and a new and luxuriant crop of hair soon started out, and we can now say that our boy has as healthy a scalp, and as beautiful a crop of hair as any other child. We can therefore, and do hereby recommend your Restorative, as a perfect remedy for all diseases of the scalp and hair. We are, yours respectfully,

GEORGE W. HIGGINBOTHAM, SARA A. HIGGINBOTHAM.

PROF. O. J. WOOD—Dear Sir: I have used two bottles of Prof. Wood's Hair Restorative, and can truly say it is the greatest discovery of the age for restoring and changing the hair. Before using it, we had as scaldy a scalp, and as luxuriant a crop of hair as any other child. We can therefore, and do hereby recommend your Restorative, as a perfect remedy for all diseases of the scalp and hair. We are, yours respectfully,

DANIEL N. MURPHY, O. J. WOOD & CO., Proprietors 313 Broadway, New York, (at the great N. Y. Wire, Railing Establishment, just at Market St., St. Louis, Mo.) And sold by all good Druggists.

Nov. 15.

Oct. 11.

NOTICE. Estate of Elizabeth Koch, deceased. LETTERS of Administration on the estate of ELIZABETH KOCH, late of Latimore township, Adams county, deceased, having been granted to the subscriber, residing in the same township, he hereby gives notice to persons indebted to said Estate, to call and settle the same; and those who have claims, are desired to present the same, properly authenticated, for settlement on or before

Oct. 25.

20,000 lbs. Pork, WANTED in December next, for which CASH will be paid. Farmers who have the article for sale will do well by calling and making arrangements with the subscriber, at his Flour, Bacon & Grocery Store, in West Middle-street, Gettysburg.

Nov. 8.

TO CONSUMPTIVES.—The advertiser having been restored to health in a few weeks, by a very simple remedy, after having suffered several years with a severe Lung Affection, and that dread disease, Consumption, is anxious to make known to his fellow sufferers the means of cure. To all who desire it he will send a copy of the prescription used (free of charge), with directions for preparing and using the same, which they will find a sure Cure for Consumption, Asthma, Bronchitis, &c. The object of the advertiser in sending the prescription is to benefit the afflicted, and he hopes every sufferer will try his remedy, as it will cost him nothing, and may prove a blessing. Parties wishing the prescription will please address

DISSOLUTION OF PARTNERSHIP. THE co-partnership existing between the subscribers has been dissolved this day by mutual consent. We return thanks to our friends and the public for the liberal support extended to us. Our books are placed in the hands of Geo. E. Bringham, and in his absence will be settled by J. Culp at the Store, and we are desirous of settling our business without delay.

JOHN CULP, GEO. E. BRINGMAN.

Oct. 22.

A CARD. THE subscriber having disposed of his interest in the Store of Bringham & Culp to Alexander Cobean, respectfully asks the continuance of his friends and customers to patronize his successors, whose bargains may be had.

GEO. E. BRINGMAN, JOHN CULP.

Oct. 25.

ANOTHER CHANGE IN THE Hat, Shoe, and Harness Business.

THE subscriber, A. Cobean, having bought out the interest of Geo. E. Bringham, Esq., in the firm of Bringham & Culp, respectfully announces to the citizens of Gettysburg and the public generally, that the business will be continued at the old stand, sign of the "Big Boot," by Cobean & Culp, who will constantly keep on hand a large stock of Goods in the line of Shoes, Hats, Caps, Trunks, Carpet Bags, and Harness; and they will also continue the manufacture of Shoes and Harness.

From their long experience in all the above branches, they flatter themselves that they can please the public, and will sell cheap for cash.

A. COBEAN, JOHN CULP.

Oct. 25.—If

PAXTON & McHENRY, Nov. 8.

VALUABLE MILL & FARM FOR SALE.

I WILL sell at Private Sale, my MILL and FARM, situate on Piney Creek, in Germany township, Adams county, within one and a half miles of the west end of the Littlestown Railroad, and when the Railroad is extended to Turbott, it will in all probability pass by this property.

The Farm Contains 27 Acres of land, more or less; 10 to 12 Acres are heartily timbered, and about 10 Acres of good Meadow Bottom. The land is mostly late State soil, and very susceptible of a high state of cultivation; some acts well upon it, and Limestone is close by.

THE IMPROVEMENTS ARE A LARGE CRIST MILL, Dwelling-House, Stable, &c. The Mill has two run of Stones, Kiln Dry, Howning mill, Plaster mill, Corn mill, Sift Machine, and all necessary Machinery complete for doing work in the very best manner. The mill has been recently built upon the most modern and improved plan, and is all in complete running order. This property is one of the best locations in the County for a DISTILLERY, in a

FINE GRAIN COUNTRY, and near the Railroad, and might with very little expense, be made a very profitable investment. This property will be in the market until sold. Possession given 1st of April next. The property will be shown by Thomas Biddle, residing thereon, or by

GEO. ARNOLD, Gettysburg.

Oct. 11.

A DESIRABLE RESIDENCE & LOTS AT PRIVATE SALE. HB subscriber, wishing to relinquish business and remove, offers at Private Sale, on reasonable terms,

A Desirable Residence, & Lots of Ground, situated in the pleasant village of Cashtown. On Lot No. 1 is erected a large & commodious two-story weather-boarded

DWELLING, with BACK BUILDING attached, fronting on the Gettysburg and Chambersburg Turnpike. The above has been occupied, in part, as a STORE for eighteen years, and situated, as it is, in a thriving and thickly-settled neighborhood, makes it an excellent situation for a Country Store.

There is also on the premises a Warehouse, Stable, Carriage-house, and all necessary Out-buildings, with an excellent and never-failing well of water at the kitchen door; also, a thriving young Orchard of choice fruit. Also, LOTS No. 2, 3, 4 and 5, adjoining the above, very desirable for building, or other purposes.</

blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it

permeates the whole body, and may burst out in disease on any part of it. No organ is free from its attack, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unwholesome food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children, unto the third and fourth generations," and, it seems to be the rod of Him who says, "I will visit the iniquity of the fathers upon the children."

Its effects commence by depauperation from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles, in the glands, swellings, and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the system, and thus renders the system susceptible of the effects of the contagion.

the clergy of the, so that scrofulous constitutions not only suffer from scrofulous complaints but they have far less power to withstand the attacks of other diseases, consequently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly

in this scrofulous contamination, and many destructive diseases of the liver, kidneys, brain, and indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; then persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate

the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S
Compound Extract of Sarsaparilla,
the most efficient remedy which the medical

Still of our tunes can devise for this every-
where prevailing and fatal malady. It is com-
bined with the most active remedies that have
been discovered for the expurgation of this foul
disorder from the blood, and the rescue of the
system from its destructive consequences.
Hence it should be employed for the cure of
not only scrofula, but also those other affec-

and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYMPHITIC AND MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, CURED ALL COMPLAINTS ARISING FROM VITIA

tion on INTERNAL BLOOD. The popular belief in "impurity of the blood," is founded in truth; for scurfiness is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, with which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

it is the method which is bowed down with
in or physical debility is astonished to find his
health of energy restored by a remedy at once so
simple and meeting

Not only do they cure the every day complaints
of every body, but also many formidable ones,
dangerous diseases. The agent below named has
